RACHEL MOGLEN

https://rmoglen.github.io/ 204 E Dean Keeton St, Austin, TX 78712 rmoglen@utexas.edu

EDUCATION

University of Texas, Austin, TX
Ph.D. Operations Research and Industrial Engineering — Fall 2019 – Present

University of Maryland, College Park, MD
M.S. Mechanical Engineering — Fall 2017 – Spring 2019
B.S. Civil and Environmental Engineering *with Honors in Engineering* — Fall 2013 – Spring 2017

EIT Environmental Engineering, MD — June 2017

AWARDS

PEO Scholar Award, Philanthropic Educational Organization (PEO) Sisterhood — Spring 2023
- $20,000 merit-based award for women pursuing doctorates in the U.S. and Canada

Cockrell School of Engineering Fellow, University of Texas at Austin — Fall 2019 – Present
- Included full funding for one year of graduate school, and an additional $9,000 annually for 4 years

NSF INFEWS Fellow, University of Texas at Austin — Fall 2019 – Summer 2022
- Selected to participate in A National Science Foundation (NSF) Research Traineeship (NRT) focused on Innovations at the Nexus of Food-Energy-Water Systems (INFEWS)

Macro-Energy Systems Fellow, Stanford University — Fall 2020 – Fall 2021
- One of 4 selected fellows with a $1,500 honorarium

Professional Development Award, University of Texas at Austin — Fall 2020, Fall 2021, Fall 2022
- Included financial support to present at a conference

Dean's M.S. Research Award Competition Department Finalist, University of Maryland — Spring 2019

College of Engineering Most Outstanding Research Award, University of Maryland — Spring 2017

RESEARCH AND PROFFESIONAL EXPERIENCE

University of Texas at Austin, Austin, TX — Fall 2019 – Present
Research Assistant for Dr. Benjamin Leibowicz — ***Python, Pyomo***
- Applying optimization techniques to improve the resilience of interdependent infrastructure systems
- Developing tools to support national security funded by the Defense Threat Reduction Agency (DTRA)

Argonne National Laboratory, Lemont, IL — Summer 2023
Graduate Intern for the Electricity Markets Team — ***Python, Julia***
- Developed supply and demand inputs to a disaster resilience simulation of extreme weather events

Sandia National Laboratory, Albuquerque, NM — Summer 2020, Summer 2021
Graduate Intern for the Energy and Water Systems Integration Department — ***Python, QGIS***
- Modeled water distribution system dynamics for disaster resilience studies

University of Maryland, College Park, MD — Fall 2017 – Spring 2019
Research Assistant for Dr. Steven Gabriel — ***R, Python***
- Applied Stochastic and Deterministic Optimization to the energy sector for improved flexibility
- Placed as the ***University of Maryland Dean's M.S. Research Award Competition Department Finalist***

Whisker Labs, Germantown, MD — Summer 2017
Research and Development Intern for Demand Response Team — ***Python, R, AWS***
- Coded and deployed tool on AWS Lambda to notify users of extreme energy prices in ERCOT

University of Maryland, College Park, MD — Fall 2016 – Spring 2017
Research Assistant for Dr. Kaye Brubaker — ***MATLAB***
- Developed life cycle predictive model of algae bloom probabilities on the Chesapeake Bay
- Earned the ***University of Maryland College of Engineering Most Outstanding Research Award***

STUDENT ORGANIZATIONS

Secretary, INFORMS Student Chapter, University of Texas at Austin — Fall 2021 – Present
Secretary, Mechanical Engineering Graduate Student Board, University of Texas at Austin — Fall 2021 – Present
President, INFORMS Student Chapter, University of Texas at Austin — Fall 2020 – Spring 2021
Department Representative, Graduate Student Assembly, University of Texas at Austin — Fall 2020 – Spring 2021

SERVICE

Diversity, Equity, and Inclusion Committee Graduate Student Representative, Department of Mechanical Engineering, University of Texas at Austin — Fall 2022 – Present
Society of Women in Engineering Mentor, University of Texas at Austin — Fall 2019 – Spring 2020
Scientific Committee Member, Trans-Atlantic Infraday Conference — Fall 2018, Fall 2019

RELEVANT COURSES

Energy Technology and Policy
Probability and Statistics
Simulation and Design of Experiments
Probabilistic Optimization
Applied Machine Learning
Optimization Under Uncertainty
Applied Multivariate Analysis
Microeconomics

SELECTED CONFERENCE PRESENTATIONS

Workshop on Creating an Academic Website — Mar 2023
Texas Women in Mathematics Symposium, Austin, TX

Restoration of Power Infrastructure Following a Nuclear Detonation — Oct 2022
INFORMS Annual Meeting, Indianapolis, IN

Disaster Resilience Planning Under Uncertainty: A Nexus Approach — Oct 2021
INFORMS Annual Meeting, Anaheim, CA and Virtual

Water Infrastructure Resilience: A Case Study in the US Virgin Islands — Nov 2020
INFORMS Annual Meeting, Virtual Conference

Using Dynamic Programming for Real-Time Residential Demand Response Scheduling — May 2018
Computational Management Science Conference**,** Trondheim, Norway
