RACHEL MOGLEN

https://rmoglen.github.io/ 204 E Dean Keeton St, Austin, TX 78712 rmoglen@epri.com

EDUCATION

University of Texas, Austin, TX
Ph.D. Operations Research and Industrial Engineering — May 2024
University of Maryland, College Park, MD
M.S. Mechanical Engineering — May 2019
B.S. Civil and Environmental Engineering *with Honors in Engineering* — May 2017
EIT Environmental Engineering, MD — June 2017

AWARDS

PEO Scholar Award, Philanthropic Educational Organization (PEO) Sisterhood — Fall 2023 – Spring 2024
- $20,000 merit-based award for women pursuing doctorates in the U.S. and Canada

Cockrell School of Engineering Fellow, University of Texas at Austin — Fall 2019 – Spring 2023
- Included full funding for one year of graduate school, and an additional $9,000 annually for 4 years

NSF INFEWS Fellow, University of Texas at Austin — Fall 2019 – Summer 2022
- Selected to participate in A National Science Foundation (NSF) Research Traineeship (NRT) focused on Innovations at the Nexus of Food-Energy-Water Systems (INFEWS)

Macro-Energy Systems Fellow, Stanford University — Fall 2020 – Fall 2021
- One of 4 selected fellows with a $1,500 honorarium

Professional Development Award, University of Texas at Austin — Fall 2020, Fall 2021, Fall 2022
- Included financial support to present at a conference

Dean's M.S. Research Award Competition Department Finalist, University of Maryland — Spring 2019
College of Engineering Most Outstanding Research Award, University of Maryland — Spring 2017
Engineering Honors Student, University of Maryland — Spring 2016 – Spring 2017
University Honors Student, University of Maryland — Fall 2013 – Spring 2017

RESEARCH AND PROFFESIONAL EXPERIENCE

Electric Power Research Institute, Washington, DC — May 2024 – Present
Research Scientist for the Integrated Energy System Planning Team — ***Python, Pyomo, QGIS, openTEPES***
Conducting research on long-term resource planning, decision-making under uncertainty, and optimization

Electric Power Research Institute, Washington, DC — January 2024 – May 2024
Student Employee for the Integrated Energy System Planning Team
Performed literature review of stochastic modeling in long-term utility resource planning

University of Texas at Austin, Austin, TX — Fall 2019 – Spring 2024
Research Assistant for Prof. Benjamin Leibowicz — ***Python, Pyomo***
Applied optimization techniques to improve the resilience of interdependent infrastructure systems

Argonne National Laboratory, Lemont, IL — Summer 2023
Graduate Intern for the Electricity Markets Team — ***Python***
Developed renewable generation inputs to a disaster resilience simulation of extreme weather events

Sandia National Laboratory, Albuquerque, NM — Summer 2020, Summer 2021
Graduate Intern for the Energy and Water Systems Integration Department — ***Python, QGIS***
Modeled water distribution system dynamics for disaster resilience studies

Washington Gas, Springfield, VA — Summer 2019
Pipeline Risk Intern for the Distribution Integrity Management Team — ***R, ArcGIS***
Developed ArcGIS-based risk model for natural threats to natural gas distribution pipelines

University of Maryland, College Park, MD — Fall 2017 – Spring 2019
Research Assistant for Prof. Steven Gabriel — ***R, Python***
Applied Stochastic and Deterministic Optimization to the energy sector for improved flexibility
Placed as the ***University of Maryland Dean's M.S. Research Award Competition Department Finalist***

University of Maryland, College Park, MD — Spring 2018, Spring 2019
Teaching Assistant for Simulation and Design of Experiments — ***R, MATLAB***
Designed homeworks, held office hours, gave guest lectures, and helped design aspects of the course

Whisker Labs, Germantown, MD — Summer 2017
Research and Development Intern for Demand Response Team — ***Python, R, AWS***
Coded and deployed tool on AWS Lambda to notify users of extreme energy prices in ERCOT

University of Maryland, College Park, MD — Fall 2016 – Spring 2017
Research Assistant for Prof. Kaye Brubaker — ***MATLAB***
Developed life cycle predictive model of algae bloom probabilities on the Chesapeake Bay
Earned the ***University of Maryland College of Engineering Most Outstanding Research Award***

LimnoTech, Washington, D.C. — Summer 2016
Engineering Intern for Water Resources Consulting Firm — ***ArcGIS***
Researched and documented data sources as part of a Harmful Algal Bloom (HAB) modeling project

STUDENT ORGANIZATIONS

Secretary, INFORMS Student Chapter, University of Texas at Austin — Fall 2021 – Spring 2024
Member, INFORMS Student Chapter, University of Texas at Austin — Fall 2019 – Spring 2024
Secretary, Mechanical Eng. Graduate Student Board, University of Texas at Austin — Fall 2021 – Spring 2024
Member, Mechanical Eng. Graduate Student Board, University of Texas at Austin — Fall 2019 – Spring 2024
President, INFORMS Student Chapter, University of Texas at Austin — Fall 2020 – Spring 2021
Department Representative, Graduate Student Assembly, University of Texas at Austin — Fall 2020 – Spring 2021

SERVICE

Diversity, Equity, and Inclusion Committee Graduate Student Representative, Department of Mechanical Engineering, University of Texas at Austin — Fall 2022 – Fall 2023
Mentor, Department of Mechanical Engineering, University of Texas at Austin — Fall 2021, Fall 2023
Society of Women in Engineering Mentor, University of Texas at Austin — Fall 2019 – Spring 2020
Scientific Committee Member, Trans-Atlantic Infraday Conference — Fall 2018, Fall 2019

RELEVANT COURSES

Energy Technology and Policy
Probability and Statistics
Simulation and Design of Experiments
Probabilistic Optimization
Multivariate Statistical Analysis
Applied Machine Learning
Optimization Under Uncertainty
Applied Multivariate Analysis
Microeconomics
Decision Analysis

CONFERENCE PRESENTATIONS

Uncertainty Modeling in Integrated Resource Planning — Oct 2024
EPRI P178 Research Seminar, Washington, DC

The Value of Coordination for Restoring Power and Wireless Networks — Oct 2024
INFORMS Annual Meeting, Seattle, WA

Stochastic Modeling Practices for Integrated Resource Planning — Oct 2024
EnCompass User Group Meeting, Kansas City, MO

Optimal Restoration of Power Infrastructure Following A Disaster with Environmental Hazards Oct 2023
INFORMS Annual Meeting, Phoenix, AZ

Workshop on Creating an Academic Website Mar 2023
Texas Women in Mathematics Symposium, Austin, TX

Restoration of Power Infrastructure Following a Nuclear Detonation Oct 2022
INFORMS Annual Meeting, Indianapolis, IN

Disaster Resilience Planning Under Uncertainty: A Nexus Approach Nov 2021
Trans-Atlantic Infraday Conference, Espoo, Finland and Virtual

Disaster Resilience Planning Under Uncertainty: A Nexus Approach Oct 2021
INFORMS Annual Meeting, Anaheim, CA and Virtual

Disaster Resilience Planning Under Uncertainty: A Nexus Approach May 2021
IISE Annual Meeting and Expo, Virtual Conference

Water Infrastructure Resilience: A Case Study in the US Virgin Islands Nov 2020
INFORMS Annual Meeting, Virtual Conference

A Deterministic and Stochastic Dynamic Programming Approach to Demand Response Planning Nov 2018
Trans-Atlantic Infraday Conference, Washington, DC

Using Dynamic Programming for Real-Time Residential Demand Response Scheduling May 2018
Computational Management Science Conference**,** Trondheim, Norway
